Avalon Park company wins \$1.5M contract from DOT

Data Transfer Solutions LLC said Wednesday it has won a \$1.5 million deal to provide the state with computer-systems support for highway planning work.

The high-tech company, based in east Orange County, received the contract from the Florida Department of Transportation's District 1 Office in Bartow.

Terms call for Data Transfer to provide technical support to the highway planners' Geographic Information System used in road construction projects. The company will also provide database maintenance, programming development and other services to the state's advanced GIS work, Data Transfer said.

Data Transfer is located in Avalon Park east of Orlando. It specializes in transportation planning, engineering, website design, database management and other high-tech services.
